THE JOURNEY

Our mission is to make you better. One shot, one round, one weekend at a time. We can't promise it will be overnight. No one can. But we can say we'll be there. With meaningful innovations that start in the lab, not the marketing department. We're here to play, to challenge, to compete at the highest level. We're here for the Journey. THE JOURNEY TO **BETTER.**

EVERYTHING YOU NEED TO **GET BETTER**

Srixon offers tour-influenced performance,
real innovation and stunning design.
Everything you need to get better.

A HISTORY OF INNOVATION

Srixon golf balls and clubs were developed with an innovative spirit that has been at the core of the Srixon brand for more than 80 years. Utilizing the advanced simulation tools at the Srixon Golf Science Center in Ichijima-cho, Japan, every club and ball is designed with proprietary Digital Impact Technology™ to ensure precise performance for the target player.

TOUR FITTING

The Tour Fitting promise means uncompromising product validation with our elite global staff of tour professionals.

YOUR FAITHFUL PARTNER

All Srixon products are built with the highest quality manufacturing processes and unsurpassed attention to detail.

GOLF BALLS //

spinskin™

This proprietary surface coating combines a soft feel with greater frictional force to create exceptional spin control and durability.

Speed Dimple™ Pattern

Speed Dimples enhance the aerodynamics of the golf ball, creating performance that is unyielding to the wind.

E.G.G.™ Core

The proprietary Energetic Gradient Growth™ core (E.G.G.) enhances feel and control from the inside without sacrificing ball speed. This means longer, more accurate shots with the softest feel possible.

Visual Performance

Srixon utilizes both Pure White and Tour Yellow to enhance overall visibility whether you play in cloudy or bright conditions. Simply seeing the ball clearly results in better play.

Tuned for Player Type

Srixon designs golf balls that will fit any player type regardless of handicap or swing speed. "Tour" is the same performance used by the best players in the world. "All Ability" blends Tour and Game Improvement performance. "Game Improvement" features advanced technologies that maximize distance and forgiveness.

STAR Performance

Each Srixon golf ball model is designed by strategically balancing Spin, Trajectory, Acceleration and Responsiveness for the target player. The result is unmatched performance on every shot.

Z-STAR

NEW

The new Z-STAR combines next generation SpinSkin™ and Speed Dimples™ innovation to give the “Tour” player unmatched feel and control, and the Energetic Gradient Growth™ core delivers incredible distance.

Second Generation SpinSkin™

The new coating increases frictional force by 18% and overall cover softness by 21% compared to the previous Z-STAR, leading to more greenside spin and touch.

324 Speed Dimple™ Pattern

Next generation Speed Dimple™ technology combines uniformity of dimple design with higher surface coverage, creating more distance and wind resistance.

Energetic Gradient Growth™ Core

Advanced construction optimizes S.T.A.R. Performance. (Spin, Trajectory, Acceleration, and Responsiveness)

Ball Type: Tour

Swing Speed: 90-105 MPH

Launch: Mid-High

Greenside Spin: High

SPECIFICATIONS

COVER HARDNESS	27
COVER THICKNESS	0.020"
COMPRESSION	90
DIMPLE NUMBER	324

Available in both Pure White and Tour Yellow.

Z-STAR XV

NEW

The new Z-STAR XV has an enhanced dual Energetic Gradient Growth™ core and Speed Dimples™ for long penetrating distance, and the new SpinSkin™ coating provides exceptional control for the “Tour” player.

Second Generation SpinSkin™

The new coating increases frictional force by 18% and overall cover softness by 21% compared to the previous Z-STAR, leading to more greenside spin and touch.

324 Speed Dimple™ Pattern

Next generation Speed Dimple™ technology combines uniformity of dimple design with higher surface coverage, creating more distance and wind resistance.

Dual Energetic Gradient Growth™ Core

Advanced construction optimizes S.T.A.R. Performance. (Spin, Trajectory, Acceleration, and Responsiveness)

Ball Type: Tour
Swing Speed: 100+ MPH
Launch: Mid-High
Greenside Spin: High

SPECIFICATIONS

COVER HARDNESS	29
COVER THICKNESS	0.020"
COMPRESSION	105
DIMPLE NUMBER	324

Available in both Pure White and Tour Yellow.

Q-STAR

The Q-STAR is engineered for the “All Ability” golfer, with more distance and accuracy off the tee and more control from fairway to green. Q-STAR has the perfect combination of distance and control off the tee and spin performance around the green.

SpinSkin™

Proprietary coating improves friction between golf ball and club surface by 20% for unmatched greenside spin.

344 Speed Dimple™ Pattern

Maximum surface coverage reduces drag for more distance.

Energetic Gradient Growth™ Core

Advanced construction optimizes S.T.A.R. Performance. (Spin, Trajectory, Acceleration, and Responsiveness)

Ball Type: All Ability
Swing Speed: 75+ MPH
Launch: Mid-High
Greenside Spin: Mid-High

SPECIFICATIONS

COVER HARDNESS	57
COVER THICKNESS	0.057"
COMPRESSION	75
DIMPLE NUMBER	344

Available in both Pure White and Tour Yellow.

SOFT FEEL

Soft Feel is longer and softer than ever. This low compression golf ball incorporates an advanced Energetic Gradient Growth™ Core for softer feel and greenside control without sacrificing distance. Aerodynamic Speed Dimples™ promote a longer, more penetrating flight.

Exceptionally Soft Low Compression Core

Advanced Energetic Gradient Growth™ core maximizes performance for moderate to slow swing speeds.

344 Speed Dimple™ Pattern

Aerodynamic pattern promotes longer flight.

“Hit Straight” Alignment Aid

Makes putting easier.

Ball Type: Game Improvement

Swing Speed: All

Launch: High

Greenside Spin: Mid

SPECIFICATIONS

COVER HARDNESS	60
COVER THICKNESS	0.071"
COMPRESSION	72
DIMPLE NUMBER	344

Available in both Pure White and Tour Yellow.

SOFT FEEL LADY

The new Soft Feel Lady is designed specifically for women, promoting a longer, higher trajectory with every club in the bag. This newly engineered low compression offering has an exceptionally soft Energetic Gradient Growth™ core for soft feel on all shots.

Exceptionally Soft Low Compression Core

Maximizes performance for moderate to slow swing speeds.

344 Speed Dimple™ Pattern

Aerodynamic pattern promotes longer flight.

“Hit Straight” Alignment Aid

Makes putting easier.

Ball Type: Game Improvement
Swing Speed: All
Launch: Mid-High
Greenside Spin: Mid-High

SPECIFICATIONS

COVER HARDNESS	59
COVER THICKNESS	0.071"
COMPRESSION	59
DIMPLE NUMBER	344

Available in both Pure White and Passion Pink.

MARATHON

The Marathon is engineered for distance and durability. The large, highly resilient Energetic Gradient Growth™ core delivers extreme distance and a strong ionomer covers protects the ball from harsh elements.

Energetic Gradient Growth™ Core

Advanced core technology is engineered to maximize distance.

Strong Ionomer Cover

Enhances durability for better value and performance.

Ball Type: Game Improvement

Swing Speed: All

Launch: Mid-High

Greenside Spin: Mid

SPECIFICATIONS

COVER HARDNESS	63
COVER THICKNESS	0.071"
COMPRESSION	98
DIMPLE NUMBER	333

Available in Pure White only.

PREMIUM RANGE

The Premium Range ball is the softest, most durable offering we have ever engineered. This is a distance ball that does not disappoint on the Journey to Better.

Color: White

Construction: 2 PC

LIMITED FLIGHT RANGE

The Limited Flight Range ball is three times more durable than the average offering. Combine this durability with soft feel and you have an exceptional overall value.

Color: White, Yellow

Construction: 1 PC

RESORT

The Resort ball is an economical way to offer a one-of-a-kind memento that highlights your golf course's insignia. This offering creates a lasting memory for the avid golfer and collector. Order these by the dozen and we will deliver them in bulk with your club logo.

Color: White

Custom Logo Available Upon Request

CUSTOM DESIGNED AND PERSONALIZED

Srixon simplifies the process of ordering both logo and personalized golf balls. You will be guided step-by-step through the process of uploading your logo or typing in your personalization. In addition, you will be able to proof your design with our new 3D rotational capability. The ease and functionality of this site will make every custom order a breeze. Just print out the order and reference the project ID number when calling it into our customer service department: 1-800-999-6263.

CUSTOM.SRIXON.COM

ANGRY BIRDS™

Everyone's favorite birds can now fly on the golf course! Angry Birds™ Golf Balls promote a high launch angle and shallower descent for maximum distance from tee to green.

Ball Type: All Ability

Available in a 6PK

DUCK DYNASTY®

Did you know that your favorite duck hunting family, the Robertsons, play golf? They do, and prefer to tee it up with Blaze Orange. Now you can play Blaze Orange and bring your favorite bearded redneck family to the golf course with Srixon's new Duck Dynasty® offering.

Ball Type: All Ability

Available in a 6PK

JR STAR

The JR STAR is a lightweight, high-launch ball made for junior golfers with swing speeds between 50 and 70 mph. Golf balls come in a starter kit that includes colored tees and a ball marker.

Ball Type: Kids Age 5-13

Available in a 8PK

Logo Parameters:
Size: 7/8" (standard), 1" max
Colors: Up to 6 colors

SRIXON
DEDICATED TO IMPROVING YOUR GAME

Dual Speed Technology™

Dual Speed Technology (DST™) maximizes a player's rotation efficiency while also delivering more kinetic energy at impact. The end result: more head speed, more ball speed and more distance.

Advanced Face Technology

Ball speeds have been maximized with advanced face constructions. A 6-4 Ti cup face in both the **Z 545** and **745** drivers enlarges the sweet spot, while an HT1770 maraging steel face in the **Z F45** fairway and **Z H45** hybrid has increased COR.

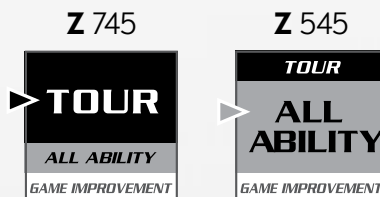

Variable Face Thickness

The face designs create faster, more resilient impact surfaces with added forgiveness thanks to enhanced variable face thicknesses. Thinner heel and toe portions have created larger sweet spots in all Srixon **Z** Series woods.

Quick Tune System™

Fast, simple, QTS™ allows anyone to easily adjust loft, lie, face angle and center of gravity settings. Use the 12 way hosel to tune face angle and lie along with loft. Choose a 3, 7 or 11 gram weight to precisely tune center of gravity for optimal launch and spin.

Tuned for Player Type

The larger 460cc profile in the **Z 545** driver creates a more confident look with added forgiveness for the "All Ability" player. The "Tour" player will appreciate the more compact and workable 430cc profile in the **Z 745** driver.

Tour Fitting

Whether it's Graeme McDowell, Keegan Bradley, or Hideki Matsuyama, the global Srixon tour professional staff has provided invaluable feedback on the Srixon **Z** Series.

QTS™ WEIGHTS

6-4 Ti CUP FACE

QTS™ HOSEL

Z 545 DRIVER

With a sleek and aggressive design, the Srixon Z 545 driver is for “All Ability” players that demand maximum distance in a larger, more forgiving shape.

Dual Speed Technology™

Increases ball speed and distance by maximizing the driver’s rotation efficiency.

QTS™ Adjustability

Adjust and precisely tune ball flight with 36 unique settings for loft, lie, face angle and center of gravity.

Cup Face Construction

35% larger sweet spot through strong yet light 6-4 Ti cup face.

Player Type: All Ability
Launch: Mid-High
Spin: Low

IRONS

RUSSELL KNOX
#JOURNEYTO**BETTER**

SRIXON[®]
DEDICATED TO IMPROVING YOUR GAME

Forged

In the Srixon **Z** Series, the iron and utility club heads are forged from the highest quality, softest 1020 carbon steel. With a lower carbon content, **Z** iron and utility heads are high-strength while also exceptionally responsive and smooth at impact.

Tour V.T. Sole

To enhance turf interaction and trajectory control, Srixon **Z** 545 and 745 irons feature the newly developed Tour V.T. Sole. By increasing leading bounce and decreasing trailing bounce, a "V" is created in the sole profile that has been proven to reduce turf resistance and tighten shot dispersion.

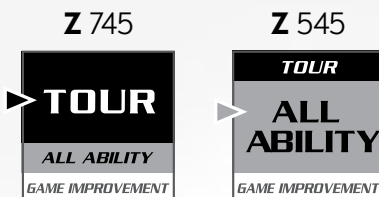

Double Laser Milling

This process places two different laser milling patterns on the club face, one parallel to the grooves and another slightly angled. The result is more stable spin performance and more confident distance control from every lie, especially the rough.

Advanced Construction

The **Z** U45 utility and **Z** 545 irons have distance enhancing SUP10 steel faces and soft, ultra-premium 1020 carbon steel bodies for a smooth feel. The 3-6 irons in the **Z** 545 and 745 feature a tungsten toe weight to optimize the center of gravity.

Tuned for Player Type

The slim topline and compact shape in **Z** 745 irons provide the confidence and workability the "Tour" player demands. The "All Ability" player will find added forgiveness and distance in the slightly larger **Z** 545 irons.

Tour Fitting

Whether it's Graeme McDowell, Keegan Bradley, or Hideki Matsuyama, the global Srixon tour professional staff has provided invaluable feedback on the Srixon **Z** Series.

Z 545 IRONS

Distance-oriented for "All Ability" players, Srixon Z 545 irons combine hot flight and incredible feel in a slightly larger, more forgiving cavity-back profile.

SUP10 Steel Face

Increases COR for higher ball speed. Iron bodies are forged from ultra-soft 1020 carbon steel.

Tour V.T. Sole

Redesigned sole helps tighten shot dispersion with less turf resistance through impact.

Double Laser Milling

Milling on the face adds surface roughness for additional spin and trajectory control in all conditions.

Player Type: All Ability
Launch: Mid-High
